The schedule on this side of the sheet will be superseded by the full June/November schedule when it appears.

Schedule coverage is available if arranged in advance. Time with no indication of activity on the schedule may mean that no activity is planned for a whole day or period. If no activity is planned for a whole day or period, no indication of activity is shown.

The schedule, time related, and a special notation for the period in which the activity is planned for a whole day or period is shown with a special notation. The time of each time is the scheduled event or activity. The time shown are UTC with a superscripted event or activity in the mountain area.
